### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steven T. Zuschlag on 03/10/06. The application has been amended as follows: The phrase, "and including a door for opening and closing said inner chamber" has been changed to -----"and including a door for opening at least during a desorption phase and closing said inner chamber at other times" -----in line 3-4 of claim 1 and a phrase "by opening a door of the cooling container" has been added to the end of the claim 10 after the word "phase" in line 14.

### ***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: Claims 1,9,10, 14 and 15 are allowable because the prior art of record fails to disclose or suggest or teach the recited sorption cooling apparatus and including a door for opening at least during a desorption phase and closing said inner chamber at other times; an evaporator blower disposed adjacent the evaporator in the inner chamber of the cooling container for passing an air stream over the evaporator (see claim 1); a safety device for preventing the desorption phase from taking place when a door of the cooling container is closed (see claim 9); passing an air stream from outside the cooling

container over the evaporator with an evaporator blower of the sorption cooling apparatus during the desorption phase by opening a door of the cooling container (see claim 10); the sorption container being disposed on an upper outer surface of the cooling container; the evaporator being disposed on a ceiling inside the cooling container below the sorption container (see claim 14 and 15).
